

Evaluate Your Heart

WANG Irregular meter

Jonathan Wang

Jonathan Wang

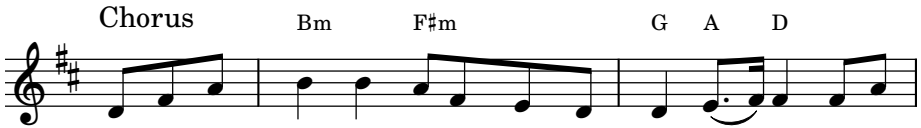

E - val-u-ate your heart and see Wheth-er He's in you and

you in He. It may be time to take a stand,

that you may know God's ul - ti - mate plan.

Our God has plans to use us, Though we may be weak. For the

church, His bo - dy, His own per - son we seek. Lord, we

trust you to lead, de-spite what this world might say. Grant us

strength, to serve you, Oh, God, have your way.

2. When you're with saints, do you know what you see?
Brothers and sisters loving Christ corporately.
All in one spirit, together they strive,
To build the church, God's eternal bride.
3. Even though you may desire to begin,
Disheartened, you may feel that you don't fit in.
But there's an answer, there's no need to search,
Simply just give yourself to the church.
4. Once we all find our own place in the church,
Oh, what a life we really can observe.
Each member, with their portion be,
Working jointly for this reality.

This song was inspired by the fall virtual college conference in 2020. During the time, there was a Q&A session in which someone asked the question of "How do you find your place in the church". One of the panelists had a very elegant answer to that question: "Just give yourself to the church." From that, this song came about as what the journey leading up to that experience might look like to a believer.
