

Nine Pillars of the Truth

Instructor: James Reinarz

Time: Wednesdays 9:00-10:00 PM ET

Class Size: No limit

What are the most important foundational truths that will help you grow healthily with the Lord? It is amazing that people can be in church for years and not have these foundations. They like “church” but are missing some very important pillars of truth. You may ask, “Should I find them in Job or Revelation or Ephesians?” If you are not sure, this class is definitely for you. Just like all books are not the same, all truths are not the same. Some are main and plain. Others are less important, but still true. This class will cover nine main and plain truths that are crucial for every believer to know. This class is not a “new believer’s series.” If it were, the topics would be different. It is not a class for raising up “spiritual marines.” If it were, the topics would be very different again. Instead, this class is intended to give the normal believer a foundation in crucial truths that can help them grow in a healthy way with Christ and in the church life.

Class Format:

Class time will be focused on lecture portions punctuated by times for students to ask questions and share what touched them in each week's topic. Students are encouraged to form groups to do each week's homework together. The homework will be submitted on Google Classroom and will get commented on before the Class time.

Class Content:

The class covers the following crucial truths:

1. Eternal Life
2. Justification & Redemption
3. Sanctification & Transformation
4. Christ
5. The Spirit
6. The Church
7. The local church
8. Believer's Reward
9. The Lord's Return

Homework:

Each week students will have pre-work, studying Bible verses before the class covers them. Students are asked to spend 30 minutes on the homework and your teacher will comment on all homework that is submitted via Google Classroom. Time will be given during class to share what touched or spoke to you in your homework.
