

Solid (for High school freshmen and sophomores)

Course Description:

What does it look like to meet the living God? How does such a meeting change your life? In this class, we will cover twelve different people from the Old and New Testaments, look at how they met the living God, and explore how their examples can set a pattern for our experience as Christians today. We hope each student will come away from the class with an appreciation for how intimately God likes to work with man and an expectation that God would appear to them in a similarly awesome way today.
