

Visions in the Book of Ezekiel

Instructor: Vern Yoder & Philip Tsao

Time: Saturdays 10:30-11:30 AM ET

Class Size: Limit of 30

A picture is worth a thousand words. Visuals portray insights, emotions, and details that words cannot adequately express. Ezekiel's visions in particular explained God's message / prophecy to His people in a practical and easily applicable way. How do you study visions? Draw it yourself. In this class, each student will be asked to draw each of the 6 major visions and then to explain their drawing to the other students. The best of the drawings will be collected and put into book format. The printed book will be made available to everyone in the class.
